Urgent Appeal for Disaster Volunteers

The Challenge

The American Red Cross is currently responding to a number of natural disasters across the country and expects a very busy session of response. In addition, we need to be prepared and continue to respond locally to home fires every day. The need for volunteers is expected to triple due to the increase in responses.

The Solution

The American Red Cross has a workforce made up of 90% volunteer. In order to provide adequate services to those affected by disaster, new volunteers are greatly needed.

Please join us at one of the upcoming information sessions to learn more about becoming a disaster volunteer:
